

NEW 10-Minute Quick-Connect Solution!

Shown above in series configuration

THE NEW QC-1000™

- NEVER CHANGE your junction box parts again to use plug-in connectors!
- Add to your bolt-on bus bars; ready to plug into your cables
- Fits ALL standard bus bars on

GE 752 motors

- For 535 MCM Cable on 1000 HP Traction Motors (any brand).
- Extra heavy duty, silver plated; a space for holding wrench when tightening.

- The tightening nut is heavy duty as well – a full 1/4” thicker. No more stretched, cracked or broken tightening nuts. The nut even fits on our competitors’ receptacles.

TO ORDER: PN QC-1000

QC-1000™
